“The future we collectively face will be forged by our own actions. Climate change stands between us and a breathtaking, exhilarating future. We cannot afford to be paralyzed by fear or shame. We must act, with power, love and a sound mind. Together, we can save ourselves.

— Katharine Hayhoe, *Saving Us*

A rectangular box with a black border, containing five horizontal lines for text input. The box is positioned on the right side of the slide, overlapping the background image of a field. The background image is a painting of a field with tall grasses in shades of green, yellow, and orange, set against a hazy, light-colored sky. The field is reflected in a body of water in the foreground.
